## SCHOOL REPORT.

---

In compliance with the law of the state, your school board respectfully submit the following report.

In looking over the year's work just closed, it is very gratifying to your school board to find so much in the line of progress. In the selection of teachers we were very fortunate. In nearly every case the teachers seemed peculiarly adapted to the needs of the school under her charge, and the right feeling between teacher and pupils, so essential to a good school, was very noticeable. It is not enough for the teacher to endure her pupils, and the pupils to abide the teacher, love between them must exist. It is easy for a teacher to show great affection and become strongly attached to kind, lovable and bright children, but it is the teacher who will find something to love in every child who can be counted among the faithful. Our teachers the past year are teachers from choice, and those who had not already earned a reputation in teaching, were working, not to obtain means to fit themselves for some other calling, but to build up a reputation as a teacher. Teachers of this town have not been engaged without first conferring with the parents of a majority of the children to come under their charge. The school board counts it a favor to be able to confer with parents at the close of a term, regarding the advisability of retaining the teacher for the next term. Parents! has it been your aim above all selfish interests in them to make our schools better? Are you working for the best good of your children, and so fitting them to take up their life work bravely? Do you insist on prompt and regular attendance every day? Are your sympathies with your children in

their differences with the teacher or is she fully sustained? Have you lent your assistance in making the expenditures of our school money bring us the best possible results?

The cost for each pupil per week for the school year is as follows: School 1, 27 cts.; school 2, 70 cts.; school 3, 43 cts.; school 4, 62 cts.; school 5, 61 cts. Seventeen different children have attended our schools from adjoining towns, at a tuition of 40 cts. per pupil per week. It is the opinion of your school board that with the present number of pupils there be no school at the Center the coming year.

Whole number of visitors during the year, 415. Visits by school board, 57.

## SPECIAL REPORT OF SCHOOLS.

### NO. I.

The spring term was taught by Miss Mabel M. Gardner, of Warner, N. H. Miss Gardner is a graduate of our State Normal School, and a teacher of some experience. She gained the good-will of her pupils at first, and the result was a pleasant and profitable term, the younger pupils showing unusual progress. All the pupils learned reading, spelling, penmanship and arithmetic. Twenty-three geography, 24 grammar, 6 history, 4 physiology, 2 bookkeeping, 3 algebra, 4 composition.

The fall and winter terms were taught by Miss Mary L. Clark, of Henniker, N. H. Miss Clark is a graduate of Salem, Mass., Normal School, and a teacher of limited experience. There were too many absences, but a large share of them were caused by sickness. We feel that a word of credit is due our larger pupils for their unusual interest in school. Miss Clark is the teacher that this school has been looking for, for sometime, and having been found, we hope she can be retained. In the fall term, the pupils all learned reading, spelling and penmanship. Thirty-one, arithmetic, 28 geography, 21 grammar, 12 history, 6 physiology, 2

bookkeeping, 3 algebra, 12 drawing, 21 composition. Winter term all learned reading, spelling, penmanship and arithmetic. Twenty-eight, geography, 21 grammar, 11 history, 5 physiology, 2 bookkeeping, 11 civil government, 3 algebra, 21 composition.

#### SCHOOL NO. 2.

This school was taught by Miss S. Emma Barrett of this town, the entire year. Miss Barrett's educational advantages were such that we expected to reap great benefit to this school from her able instructions, and our expectations were fully realized in the spring term.

Near the close of the fall term, an inharmonious chord was struck, and the effect of the unpleasant vibrations seriously injured the rest of the school.

In the spring term all the pupils learned reading and spelling, 8 penmanship, arithmetic and geography, 6 grammar and 3 history.

Fall term all the pupils learned reading, spelling and penmanship, 9 arithmetic and geography and 6 history.

Winter term all the pupils learned reading, spelling and penmanship, 4 arithmetic and geography and 2 history.
